

## NEW RULES

- **Skill Shot:** Plunge to hit shooter lane star rollovers without entering playfield, and return to plunger. Higher rollovers score more points.
- **Wizard Mode:** Drop 16 targets to light wizard mode at the outlane special inserts.
- Lighting white and amber inserts next to 4 drop targets starts 15 second hurry up at corresponding target on the right.
- Collect blinking inline to start quick hurry up at spinner (2000 a spin).
- Wood Beast target resets inline targets.
- Completing each drop target bank lights its corresponding saucer insert (4 bank - 10k, inline - 20k, and 3 bank - 30k). If Wood Beast extra ball has already been collected, light all three saucer inserts to light extra ball at saucer. Saucer always collects any and all awards available.
